1.0 Introduction

The spirit of our liberation war in 1971 was to build a glorious, developed and prosperous Bangladesh free from all sorts of exploitations and injustices. In order to achieve the goal, a group of well groomed, professional and skilled civil servants in all tiers is a must. National commitment is to build up a digital Bangladesh by 2021. We need hard ware, software and human resources to achieve the target. Human Resource is the most important to ensure digital Bangladesh. BPATC can be treated as the nursing home of human resources. BPATC mandate is to provide highest quality training, to groom up the officers of entry level, mid-level and even at the senior-level as the best administrative leaders of the soil. Bangladesh Public Administration Training Centre (BPATC) is relentlessly working to perform their assigned duties properly. We believe any training institution is a preaching and practicing house of good governance. Therefore, we try to encourage the participants by saying the best words and by demonstrating the best practices. We would like to reiterate that we religiously believe in transparency, accountability, justice and fairness. Our humble expectation from our participants is that they will also avail the opportunity to reinforce their positive attitude, pro-activeness and working spirit through the training received here. We are always with our esteemed participants to provide the best services as much as we can. The participants of ACAD are mid-level administrative leaders. They are to carry out at least two-fold responsibilities. One is to do the best deeds by their own and the other is to ensure doing the best by their sub-ordinates. We sincerely desire the participants of ACAD will utilize their time here to gather experience so that they can perform their responsibilities efficiently showing highest professionalism.

2.0 BPATC at a Glance

- Bangladesh Public Administration Training Centre (BPATC) has been established on 28 April 1984 as an autonomous body with substantial autonomy in both financial and administrative matters.
- BPATC is located at 28 kilometres north-west from Dhaka in a lush of natural environment especially marked for its ever- green, clean and serene speciality.
- A twelve-member Board of Governors (BoG) chaired by the Hon'ble Finance Minister provides necessary advice to run the Centre smoothly and smartly.
- The Centre is headed by a Rector who is a Secretary to the Government assisted by six Member Directing Staff (MDS) of the rank of Additional Secretary/Joint Secretary to the Government. Each MDS leads a Division.
- Each division consists of a number of departments headed by a Director of the rank of Deputy Secretary. Below them are Deputy Directors, Assistant Directors, Evaluation Officers and Research Officers.
- BPATC has four Regional Centres called Regional Public Administration Training Centre (RPATC) located at four old Divisional Headquarters namely Dhaka,

Chittagong, Rajshahi and Khulna. Establishment of RPATC at other Divisional Headquarters is under process.

- BPATC conducts both career oriented training courses and skill oriented short training courses.
- Career oriented and core courses of BPATC include Foundation Training Course (FTC), Advanced Course on Administration and Development (ACAD), Senior Staff Course (SSC) and Policy Planning Management Course (PPMC).
- FTC is designed for the new entrants to Bangladesh Civil Service including officers of Judicial Service, ACAD for Deputy Secretary and their equivalent level officers from Defence Services and public sector departments. SSC is for the Joint Secretary to the government and their equivalent level officers from Defence Services, while PPMC is for the Additional Secretary to the government.
- BPATC conducts research in the relevant fields.
- Providing consultancy services to the government is another integral function of BPATC.

3.0 Advanced Course on Administration and Development (ACAD)

Advanced Course on Administration and Development (ACAD) is designed for the Deputy Secretary to the government and equivalent level officers from Defence Services and public sector departments to enhance their leadership skills and knowledge to discharge their duties more effectively. Updating of the course contents in consideration of the fast changing environment of public management curriculum is a regular phenomenon.

The role of mid-level officers, i.e. Deputy Secretary and equivalents, is very important in the overall businesses of the government. They work as the bridge in between the senior and junior levels in public organizations. Moreover, it is their moral obligation to groom up the junior level officers. Therefore, they should be equipped with the necessary skills and knowledge that are vital for the dynamism of the government machinery. Keeping these in view, the contents and methodologies of this course have been designed.

In order to ensure steady growth and development, effective civil-military relationship is important. Continuous civil-military interaction will result in exchange of knowledge as well as healthy relationship based on trust and goodwill. Through participation in this course, participants will get scope to review and assess present methods, techniques, and problems of public administration in the context of socio-economic development of Bangladesh. They will get opportunity to share their ideas, experiences and insights with fellow-participants. The course will make opportunity to acquaint the participants with new approach and emerging concepts of administration and human relations. The participants will review the problem of national development with reference to specific plans and approaches with emphasis on socio-economic development of the country. They will get chance to develop modern outlook and strategic thinking ability in themselves which will contribute to analyze external and internal environments of their organizations for formulating and implementing time-befitting strategies.

GUIDELINES FOR WRITING A SEMINAR PAPER

Introduction

‘Writing seminar paper’ is an integral part of Advanced Course on Administration and Development. Each participant is required to write a seminar paper and present the paper before a panel of evaluators comprising faculty members of BPATC and renowned relevant professionals. This brief guideline is expected to facilitate the participants of the training courses in writing a seminar paper.

Area of Seminar Paper Writing

Every participant has to write seminar paper focusing on any pertinent issue/ problem/ challenge of his or her Ministry/Division/Department/Organization etc.

Seminar

A *seminar* is an occasion where a group of interested people known as participants, key note speaker/presenter, discussant(s), moderator and rapporteur assemble to discuss/share/disseminate a particular issue of concern.

Seminar Paper

A seminar paper is a complete record of works on the topic, the author has studied to disseminate/present before the targeted group of people. A seminar paper is a record of what the author wish to disseminate to the group about a topic studied. A seminar paper may be a research proposal/report/project/thesis/article/in any area of interest. It is expected that the participants shall make an original contribution to the field.

Purpose

The purpose of this assignment is to facilitate the participants to do practice in technical writing which will enrich the skills of the participants when they write a seminar paper in their service life.

General Structure of a Seminar Paper

Title

The title of a seminar paper should state topic exactly in the smallest possible number of words so that a reader can visualize a complete picture of what the paper contains. A seminar paper title should be simple, short and easy to understand.

Author's Name

Put your name, designation, your serial number, course name, the name of your institution i.e. BPATC below the title on the cover page.

Executive Summary

The executive summary should state the most important facts and ideas in the paper. It should be complete in itself. The length of the executive summary should be about 200 to 300 words. Do not put information in the executive summary which is not in the main text of your paper. Do not put references, figures, or tables in the executive summary

Text

The main text of your paper should be divided into sections, each with a separate heading. The first section should be an introduction to your topic. This section should review the background of your topic and give an outline of the contents of your paper.

You may collect information/data for your paper from various sources, such as books, journals, reports, lecture notes, etc. You must write the paper yourself using information. *You must not copy text written by other authors.* Instead, select only the information/data you need and summarize this information in your own words, give your own analysis. When you use other's ideas or findings or information, you must give recognition by citing reference. You must avoid plagiarism. The final section of your paper should summarize your conclusions.

The sections of the seminar paper should be numbered 1, 2, 3, the sub-sections in the sections should be numbered 1.1, 1.2....., 2.1, 2.2 ..., 3.1, 3.2, ... , etc.).

1. Section: Introduction

Introduction is like a brain of a human being that guides thought process, imagination, ideas, actions etc. It should provide motivation for the reader to read your entire paper. Reader should know what the paper is going to be about by reading introduction.

This section consists of-

- The general background of your work,
- The objective of your own work,
- The reasons why your work is interesting and useful
- Define issues and any key terms
- Limit scope as necessary
- State problem by defining the gap
- Explain how present study attempts to fill the gap.
- End with idea and outline of the rest of the paper

2. Section: Literature Review

Literature review is the most critical part of any intellectual discourse. Literature is the source of knowledge or stock of knowledge like an ocean. The purpose of literature review is to critically analyse the existing concepts, thoughts, ideas, and theories to identify the gaps.

- Indicate the current state of the issue/problem/topic

- Define or qualify terms
- Engage sources in analyzing the issue.

3. Section: Methods and Materials

This section should contain sources of information/data, how information/data shall be collected, what method shall be used to collect data, why certain method is being applied and why certain method is relevant etc.

4. Section: Data Analysis/Argument/Discussion

- Examine issue
- Argue how issue can be mitigated, mediated, or dealt with
- Provide evidence and support
- Make some lively commentary along the way

5. Sections: Conclusion

- Conclusion is the wheel of a vehicle that leads the reader move on i.e. the way forward derived from the findings. It should not be the copy of abstract or introduction or results rather findings and recommendations are discussed here.
- Summarize research question
- Qualify argument/discussion if you need to explain where we go now
- End well

On the basis of conclusion and findings, you should give suggestions which must be supported by your findings, arguments and logic. You must establish linkage with your research issue/question, objective(s) and findings. You should not write too many recommendations which are too general and not supported by your findings and arguments.

6. Section: References

Writing reference is an art. A participant is required to follow strictly the style that he/she has chosen. The most common citation style is the Harvard Style. BPATC does not impose any restriction on citation style. However, it is expected that the participants should follow specific reference style (preferably Harvard reference style). Double check — is everything listed on the works cited?

7. Appendix

You can attach questionnaire or any relevant document to your paper as annexure.

8. Miscellaneous

Tables

Tables must have a number and a caption above the table. The reader should be able to understand the table by reading the caption without looking at the main text. Every table must be mentioned in the main text.

Figures

Figures must have a number and a caption below the figure. The reader should be able to understand the figure by reading the caption without looking at the main text. Every figure must be mentioned in the main text.

Seminar Paper Evaluation Criteria

The Seminar Papers will be evaluated on the basis of following criteria:

Seminar Report Writing				Seminar Presentation		Total
Format/ Structure/ Linkage of the Report	Language, References and Style	Ability to Identify the Problem, Internal Consistency, Analytical Ability and Relevance of Contents	New Insights/ Ideas	Oral Presentation	Question Answer	Total
(10)	(15)	(40)	(15)	(35)	(10)	(125)

Please note that figures within parenthesis indicate marks allocated for each relevant criterion. Every Seminar paper will be evaluated by two resource persons; one from the member of the relevant faculty and the other will be an eminent resource person from outside.

Mentoring Seminar Paper

Seminar paper writing and presentation is an individual assignment. One faculty member will be assigned as ‘**Mentor**’ for 4-5 participants to assist and guide in conducting research, preparing seminar paper and make progress and final presentation. Each participant will identify an issue relevant to his/her work/office and will collect data from his/her office and relevant organizations. Participant will get two days to collect data from his/her office and relevant organizations. The Module Director will collect the proposed title from each participant and will assign one Mentor for 4-5 participants. After finalization of the seminar title, participants will have to meet their assigned Mentor for guidance and advice. It should be noted that no Mentor will be assigned in the evaluation processes of his/her own group but no seminar paper will be accepted without a clearance certificate of the relevant Mentor.

Mentor will ensure that participants follow the schedule and deadline of submission of progress report and final report, and also make progress presentation and also final presentation. If any participant unable to submit progress report on time and unable to make progress presentation, he/she will not be allowed to make final presentation. Thus, he will be considered as fail in seminar paper, as well as will not be allowed that participant to attend foreign exposure visit.

The schedule of progress reporting/progress presentation and final report/final presentation is shown below:

1st week (Thursday): Seminar Paper proposal submission and proposal presentation
