1.0 Introduction

The core of spirit of our struggle for freedom and great liberation war is to build a glorious nation, a developed and prosperous Bangladesh-free from all kind of exploitation and injustices. To build a prosperous, developed and exploitation-free nation a contingent of civil servants need to be shaped as a member of an institute with specific degree of professionalism and integrity, and a good knowledge of national and global issues. Public servants must be subject to a set of legal conditions, which enable them to effectively execute their functions and contribute to the achievement of national goal in a proper and lawful manner, across all public administration settings.

Mere knowledge on laws, rules and regulations is not enough to deliver public services effectively and professionally. Knowledge, technology and technological know-how are ever-changing and the pace of change is becoming faster and competitive. Service providers are required to be more responsive to the needs of the recipients to sustain in the competitive environment. Private sector is becoming more participative in the public domain.

To attain Vision 2041 and Sustainable Development Goals (SDGs) by 2030, the government officials must have a specific degree of professionalism and integrity and capability of translation of knowledge of administrative and constitutional laws into action. They must possess analytical insight to constructs, functions and responsibilities in an appropriate manner across all public administration settings.

03. Special Foundation Training Course for the Officials of DoR

Foundation Training Course (FTC) is the basic training programme on administration and development conducted by Bangladesh Public Administration Training Centre (BPATC). FTC is a compulsory training for all new entrants to the Bangladesh Civil Services. Although compulsory for all new recruits, FTC is not any cadre or service oriented training course rather a very generic type of programme which is conducted with the general aim of situating a new recruit in the service. It provides the foundation for subsequent professional training organised by various cadre-oriented training institutes. A candidate through a competitive examination steps into the structured system of government. FTC is the link point between the candidate pre-work life and the professional life and acts as a bridge between these two. It facilitates the transition process of probationers and sets the foundation to ease the process of their entry into the government system. It is not exclusively meant for developing their skills in line with the true sense of arranging training programme rather the prime intentions of conducting FTCs are to create some common core values among the new recruits and to develop their knowledge base required for a career-based service where generating some skill on some specific aspects relating to modern administration and management remains an add-on objective. This underlying philosophy of the foundation training course is equally applicable for all new recruits to the government service. As such, BPATC on request conducts special
