Message

I am happy to learn and feel proud to know that the participants of the 53rd Senior Staff Course (SSC) are ready to publish a souvenir named “Harmony”. It is indeed a testimony of creativity of the policy making high officials of civil service and armed forces that vibrant their graceful memories at BPATC.

Bangladesh is a democratic country and there, civil-military interaction is always welcome for greater accomplishment to patriotism and connectivity towards nation’s integrity. BPATC aims at creating and nurturing leadership quality to run the public administration with people’s value and effective governance, honesty and dedication to the country.

I believe that forty five days long effective training schedule might be helpful to understand the dimensions of administration as well as management, vision of the present government and loyalty to people’s aspiration and also happy relation and friendship among the enlightened trainees.

Therefore, this training may have further sharpened capability and wisdom to uphold their administrative leadership with changing mind set as well. Along side the rigorous daily activities and delightful field visit that the trainees at the center have to undertake and have worked hard to bring out a colorful souvenir that remain as a memoir of tough but enjoyable days they passed in the ever green environment at BPATC.

I wish all of the participants of the 53rd SSC a successful and pro-people leader with high professionalism and peaceful personal life.

Message

I am delighted to learn that the participants of 53rd Senior Staff Course are publishing a souvenir. It was my honour to be associated with this Course. The participants were found to be enthusiastic and keen to benefit themselves from the course curricula. The participation of four armed forces members has given extra hue to the course. They blended well with the course and contributed immensely.

I hope the friendship that the participants have developed during last six weeks at BPATC will go a long way in their lives during the professional career and beyond. From BPATC perspective, we tried our best to make the course intellectually challenging and professionally rewarding.

I wish all the 26 participants a success.

Greetings From Course Coordinators

It was indeed a matter of great pleasure and opportunity for us to be involved with the coordination of the 53rd Senior Staff Course.

Despite keeping them under continuous stress of training, we always found the participants of this course in jubilant mood while complying with training requirements.

Their indomitable energy is further manifest in their venture of bringing out a colourful souvenir which we believe will make them nostalgic as they would look back into the PATC days afterwards.

We felicitate them on their successful completion
