❖❖❖ Aunubhab ❖❖❖

Message

I am delighted to know that the participants of the 78 Advanced Course Administration and Development (ACAD) are going to publish a colourful souvenir titled "aunubhab" to commemorate the completion of their course.

The civil servants have to shoulder a lot of responsibilities to steer the nation towards the goal of sustainable development. Demand comes for equipping the officers with high standard of training that BPATC always tries to impart with highest professionalism. BPATC aims to create and nurse leaders who can run the public administration with efficiency, transparency, honesty and dedication.

I hope that one and half month-long training programme in course of providing the mid-level officers well-knit knowledge and understanding of the dimensions of administration and development has contributed to a long standing relationship among the participants.

Alongside the rigorous daily activities that the trainees at the center have to undertake, the ACAD participants must have worked hard to bring out a colourful souvenir. I think the souvenir will obviously remain as a remembrance of tough but colourful days that they passed in the lush green as well as enlightened environment at BPATC.

I wish their attempts to revisit the past through publishing this souvenir a success. I express my heartiest blessings for their active participation in achieving vision 2021.

A.Z.M. Shafiqul Alam
Rector, BPATC

Message

I am extremely delighted to learn that the participants of the 78th ACAD have found the Course worthwhile and the inputs of the course have reinforced their interest in the core issues concerning public administration, Management, Development Economics and Globalization, Ethical values in administration, ICT, language oriented communicative skill development and so on. We strongly believe that the outcome of the Course will sharpen and strengthen their efficiency so as to tangibly contribute toward achievement of the objectives of Vision 2021

I am given to understand the participants from Bangladesh Army, Navy and Air Force in ACAD have also found the Course pretty relevant and rewarding. Their proactive participation in the Course would undoubtedly deepen and widen the civil-military cooperation in all of our great endeavours toward building the nation on outstanding progress and prosperity.

I warmly felicitate the participants of 78th ACAD for successfully completing the Course as well as for bringing out the colourful souvenir despite their quite rigid training schedules.

I would like to thank all of those who have devoted their time and efforts, and have also contributed otherwise to make the publication laudably successful.

Md. Shafi-ul-Alam
Member Directing Staff, BPATC
&
Course Advisor, 78th ACAD

Message

It was indeed a matter of great pleasure for me to work as director of 78th Advanced Course on Administration & Development (ACAD). I am really glad to know that the participants of the course have managed to publish a souvenir despite daily schedules. I congratulate them on their eventful and successful completion of the course as well as on colourful pages of a souvenir.

I gladly recognize that they really worked hard during the Course to acquire knowledge and skills about how to cope with the changing trends in the public administration. They demonstrated commendable ability to generate new ideas and capacity to utilize management tools in innovative ways.

I hope the remembrance of BPATC will remain ever fresh in the minds of the ACAD participants as they go along to shoulder leading administrative responsibilities in near future.

I wish them great success in personal and professional life.

Kanka Jamil

Course Director, 78th ACAD

Message

It was a great pleasure and opportunity for the committee to publish a souvenir on behalf of 78 Advanced Course on Administration and Development (ACAD). Publishing souvenir was a challenging task during the tight training schedule. I personally feel proud and consider it my privilege to be associated with this memorable task.

Bangladesh Public Administration Training Center (BPATC) is the apex institute for training for civil servants of the country. Since inception BPATC has arranged three core course with promising training modules. I would like to take the chance of expressing my thanks to the Rector and the course management for facilitating us in all possible ways during the course. I would like to express gratefulness to the enterprises for financial help through advertisement for this souvenir. All the participants were keen to this emotional endeavor but some of them deserve special thanks as they have rendered painstaking efforts. I am really grateful to all the members of the publication committee have extended their relentless efforts for this task. Special thank is due for Major Md. Shakhawat Hossain psc for his untiring and sincere effort to publish this souvenir.

We are glad to present the souvenir- Aunubhab- to you as the outcome of synergistic efforts of the participants and the course management. I, on behalf of the souvenir committee, beg apology for any of unintentional errors in the souvenir.

Dr. Md. Younus Ali Pramanik

President

Publication Committee

78th Advanced Course on Administration and Development

*** Aunubhab ***

Editor's Note

When our Course director asked the class whether we shall bring out a souvenir for the course or not, there was a pin-drop silence in the room. Once the team started the work, I realized the answer of silence - bringing out a souvenir in such a busy training schedule of the Advanced Course on Administration and development (ACAD) was surely a challenging and herculean task. The souvenir '**AUNUBHAB**' is the memoirs of the co-operation and cordial assistance of the participants of 78th ACAD, where we have attached ourselves forthwith our heartiest emotions.

We have tried our best to furnish the souvenir with necessary information of the participants including the photographs of different activities during the training period. Nevertheless, if any mistake exists, I seek apology to all.

I would like to convey my gratitude and heartfelt thanks to our Course Director Ms Kanka Jamil, Course Coordinators Mr Fazle Rabbi and Mr ATM Arif Hossain for their kind assistance in making our endeavour a success.

With profound regards and good wishes to all.

Major Md Shakhawat Hossain, psc, BIR

The Center Deprived of Its Circle

Kumar Chakraborty

You sang to me of the mundane world:
red days, green days and days of silence.
Like the dear trees, man gradually raises his stature
in a slow pace invisibly
when in actual sense thermometer goes up;
sorrows leaf up like mercury.

Life is a prolonged solitude where the
impossible earthen vessels of
body and soul shiver on when,
on the vast balances of dream,
the broken mind frightens all broodings,
when water rolls down towards Hades.

In our gray days there were choked noons,
the secrets of leaves, the bent cheers of
the attitudes of trees; really death is the beginning of dreams?
the breeding process of sleep stretches up to your eye lids;
actually, we go on seeing the birth of sleep?
on and on.

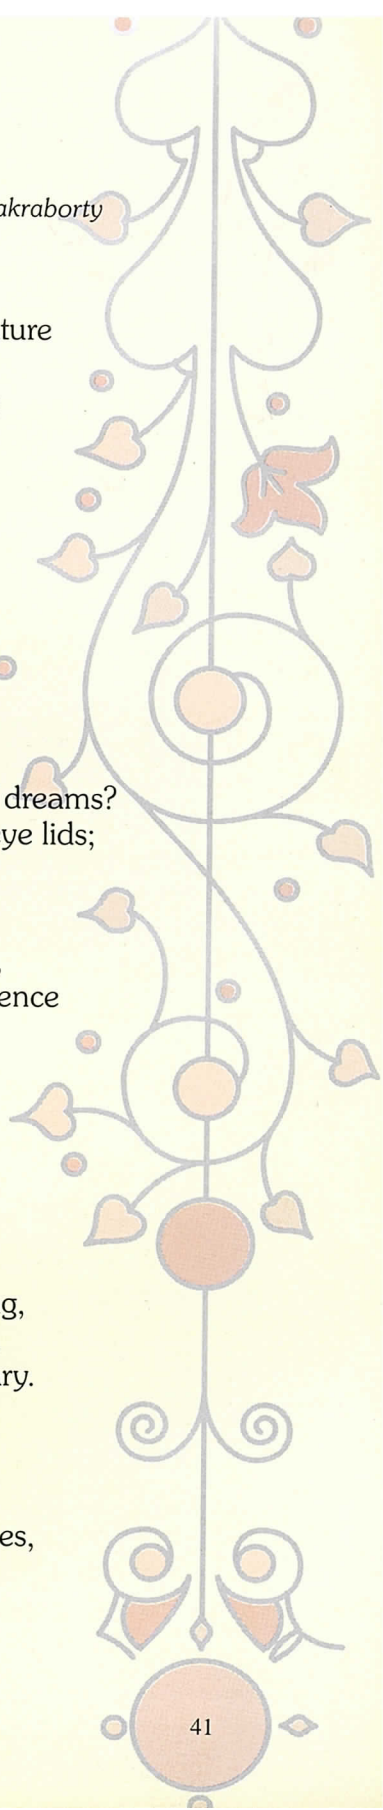

The beginning has originated not from birth,
nor from death, but from some unexpanded absence
when dreams and sleep mingle together,
and death follows them on the sly.

The moments of trees, the dress of dusk
that glides to night are remembered,
and we, having the umbrellas of clouds,
with our jeopardized sights,
realize the uniqueness of trees.

From the center following the clues of searching,
presence wants to probe the depth of mirror,
and admitting dreams, wants to reach the estuary.

The line of my coming back has not yet
proved beyond getting blotted?
when the hidden prides go on dissipating
in the pictures of sounds and the magic of echoes,
and I, accumulating desolation,
begin to get stationed like trees.

We, actually, tell of meaninglessness

অঙ্গীকার

মোহাম্মদ মঈনুদ্দীন

মোরা ২৯ জন, দৃঢ় মোদের মনোবল,
মোরা উদ্যমী, মোরা উদ্যোগী, মোরা চঞ্চল।

মোরা দ্রুত ছুটে চলা শ্রোতধারা,
মোরা পদা, মেঘনা, যমুনা, কর্ণফুলী, সুরমা।
মিলিত হয়েছি বিপিএটিসি'র মোহনায়,
যেথায় জ্ঞানের সাগর নিত্য ঢেউ তোলায়।

যেথায় কথা নয় কাজই আসল,
যেথায় সদা তুলি যেন জ্ঞানের ফসল।

মোরা হতে নাহি চাই ক্ষমতাধর প্রশাসক,
মোরা হতে চাই জাতির মহৎ সেবক।

স্বাধীনতার ৪০ বৎসর পরে,
কেন আজও মানুষ থাকে অর্ধাহারে অনাহারে?
কেন আজও অবলা নারী ও শিশুদের সম্মম হারাতে হয় ?
কেন আজও অনাথ শিশু রাস্তায় পড়ে রয় ?
কেন আজও সংজ্ঞা খোঁজতে হয় ?
কেন আজও দারিদ্রতা বিমোচনে প্রস্তুত নয় ?
কেন আইলা-দুর্গতরা গৃহহারা রয় ?
শত-সহস্র কোটি টাকা নিয়ে গেল কোন সে লুটেরা ?
মোরা সেথায় যতদিন কর্মরত থাকি,
নিজের স্বার্থ নয়, মানবতার স্বার্থ যেন দেখি।
এ হোক আজ মোদের দৃঢ় অঙ্গীকার,
মোরা যেন করতে পারি ঐ সকলের প্রতিকার।

০৯.০৭.২০১১

‘রত্নগর্ভা মা’

ড. কাইয়ুম আরা বেগম

এইতো সেদিন রাত প্রায় এগারটা ঘুমুতে যাব, খবর পেলাম সেই সংগ্রামী নারী মিসেস হোসনে আরা বেগম (বর্তমান বয়স ৭১ বছর) এবার ২০১১ সনে ‘রত্নগর্ভা মা’ পুরস্কার পেয়েছেন। আনন্দের আতিশয্যে প্রায় কেঁদেই ফেললাম। যাকেই ফোন করে খবরটা জানালাম সকলেই একবাক্যে বলল সত্যিই স্রষ্টা ন্যায় বিচারক, এ সম্মান তার পাওয়াই উচিত ছিল। তিনি যথার্থ-ই এ সম্মানের যোগ্য।

সরকারী চাকুরীজীবী স্বামীর অকাল মৃত্যুতে মাত্র সাতাশ বছর বয়সে বিধবা হলেন তিনি। সাত সন্তানের মধ্যে সর্বজ্যেষ্ঠটি ছিল তখন মাত্র তের (১৩) বছরের কন্যা সন্তান এবং সর্বকনিষ্ঠটি ছিল মাত্র তিন (৩) মাসের গর্ভে। এই অদম্য নারী তাঁর সাত সন্তানের ভবিষ্যতের দিকে তাকিয়ে সময়ের সকল বাধাবিপত্তি অতিক্রম করে দৃঢ়তার সাথে এগিয়ে চলছিলেন।

মফস্বল শহরে স্বামীর তৈরী বাড়িতেই তিনি সন্তানদের নিয়ে থাকতেন। স্বামীর পেনশনের টাকা, দু’টি বাসা ভাড়া আর ফসলী জমিই ছিল তাঁর অবলম্বন। বাবা ও ভাইদের অনুপ্রেরণায় তিনি তাঁর সন্তানদের লেখাপড়া চালিয়ে গেছেন। তাঁর প্রাতিহিক জীবন ছিল অত্যন্ত ছন্দোবদ্ধ, প্রতিদিন ভোরে কোরআন তেলওয়াত করা, প্রতিদিনের পত্রিকা পড়া, ছেলে-মেয়েদের নাচ, গান, কবিতা আবৃত্তি এমনকি আর্টের হাতেখড়িও হয়েছে এ মায়ের হাতে। তিনি সব সময়ই ভাবতেন সম্মুখে বিশাল সমুদ্র তাকে পাড়ি দিতে হবে, সন্তানদের মানুষ করে স্বামীর স্বপ্ন পূরণ করতে হবে।

সুদীর্ঘ এ সংগ্রামী জীবনে মহান আল্লাহর উপর ভরসাই ছিল তাঁর একমাত্র অবলম্বন। এ ভরসাই তাকে নানা বাধাবিপত্তি ও কষ্ট সামলিয়ে এগিয়ে চলতে সাহায্য করেছে। স্বামীর মৃত্যুর মাত্র ০৫ (পাঁচ) বছর পর বড় মেয়ের আকস্মিক মৃত্যু, এরপর তৃতীয় মেয়ের মারাত্মক সড়ক দুর্ঘটনা, ছোট মেয়ের মাত্র বার (১২) বছর বয়সে ওপেনহার্ট সার্জারী ইত্যাদি নানাবিধ বিপদ তাঁর জীবনকে বিষাদময় করে তুললেও নিরন্তর সংগ্রামে তিনি সর্বদাই ছিলেন ব্রত। জীবন চলার পথে সমস্ত বাঁধায় তিনি ছিলেন সিদ্ধান্তে অটল এবং আত্মবিশ্বাসী। পারিবারিক ও সামাজিক চাপের মধ্যেও তিনি সবসময়ই তাঁর সন্তানদের লেখাপড়ার কথা চিন্তা করতেন। তিনি তাঁর সন্তানদের প্রাচুর্য না দিতে পারলেও সন্তানদের স্বপ্ন দেখাতে শিখিয়েছিলেন, বড় হয়ে নিজের পায়ে দাড়ানোর অগ্রহ সৃষ্টি করে দিয়েছিলেন। তিনি সন্তানদের দেশ ও সমাজ সেবা করায় প্রতিনিয়তই উৎসাহ দিতেন।

বাবার স্বপ্ন ছিল ছেলেমেয়েরা শিক্ষক, জজ, ম্যাজিস্ট্রেট হয়ে দেশ সেবা করবে, আর তা বাস্তবায়নে স্বপ্নচারিণী এই রত্নগর্ভা মা সার্বক্ষণিক ছায়ার মত থেকে অক্লান্ত পরিশ্রম, নিরন্তর উৎসাহ, বাস্তবমুখী পরামর্শ বিনিয়োগ করে তাঁর প্রায় সবকয়টি সন্তানকেই যুগোপযোগী শিক্ষিত করে গড়ে তোলেন। আজ তারা স্ব স্ব ক্ষেত্রে সুপ্রতিষ্ঠিত। তাঁর একমাত্র পুত্র সন্তান যুক্তরাষ্ট্র থেকে পিএইচডি এবং কানাডা থেকে পোস্ট ডক্টরেট করে বর্তমানে নর্থ-সাউথ বিশ্ববিদ্যালয়ে ব্যবসা অনুষদ বিভাগের ডীন হিসেবে কর্মরত। একমাত্র পুত্রবধূ- যুক্তরাষ্ট্র ও কানাডা থেকে ডবল এমএস করে বর্তমানে ইন্ডিপেন্ডেন্ট ইউনিভার্সিটিতে অধ্যাপনা করছেন। বড় মেয়ে চট্টগ্রাম বিশ্ববিদ্যালয় হতে গ্রাজুয়েশন (মেধা তালিকায় ৩য়) করে বর্তমানে ঢাকায় একটি ইংলিশ মিডিয়াম স্কুলের সিনিয়র শিক্ষিকা, স্বামী-প্রাক্তন সহকারী প্রকৌশলী, পিডিবি, বর্তমানে ব্যবসা করছেন। দ্বিতীয় কন্যা বিসিএস (প্রশাসন) ক্যাডারের সদস্য, রাশিয়া থেকে ডক্টরেট করেছে, বর্তমানে উপ-সচিব, প্রতিরক্ষা মন্ত্রণালয়-এ কর্মরত। স্বামী-বিসিএস (সড়ক ও জনপথ) ক্যাডার থেকে প্রশাসন ক্যাডারে আগত বর্তমানে যুগ্ম-সচিব, জনপ্রশাসন মন্ত্রণালয়। তৃতীয় কন্যা, বিএ, প্রাক্তন স্কুল শিক্ষিকা এবং বর্তমানে সামাজিক কর্মকাণ্ডে জড়িত। স্বামী নির্বাহী প্রকৌশলী, হাউজ বিল্ডিং ফাইন্যান্স কর্পোরেশন। চতুর্থ মেয়ে বি,সি,এস (শিক্ষা), বর্তমানে সহযোগী অধ্যাপিকা ও বিভাগীয় প্রধান, ভূগোল ও পরিবেশ বিভাগ, বেগম বদরুন্নেসা সরকারী কলেজে, ঢাকা, স্বামী-জি.আই.এস পেশালিস্ট, বর্তমানে বিশ্বব্যাংকের একটি প্রকল্পে কর্মরত। সর্বকনিষ্ঠা বিএ (অনার্স) এম,এ (দর্শন) স্বামীর সাথে সৌদিআরবে বসবাসরত, স্বামী-ডাক্তার (নাক, কান, গলা বিশেষজ্ঞ) হিসেবে বর্তমানে সৌদি আরবে কর্মরত।

এ মাকে কোন্ বিশেষণে বিশেষায়িত করবো আমার জানা নেই, শুধু জানি “তিনি আমার মা, রত্নগর্ভা মা”।

Development of Agriculture

Dr. Younus Ali Pramanik

Introduction

Development of Agriculture denotes the development of farmer, house-hold economy and production system as a whole. Being a densely populated country the cultivable land is decreasing in reverse direction with the increase of population. So, it is merely difficult to achieve the development goal in Bangladesh. A long term strategic plan should be taken in terms of production system, input distribution, establishment of agro-based industry and land use system for sustainable Agriculture development. In order to combat the alarming situation of population growth and to achieve self sufficiency in food by 2013 and supply safe nutritious food to 85% of the population by 2021 the Government planned a vision to enhance production in agriculture sector through development and transfer of sustainable technologies which include ecologically adaptable, economically profitable and capable of generating productive employment.

Present status of Agriculture

Since the three decades crop production is increasing mainly rice production. Bangladesh is at the door of self-sufficiency in terms of food production. Due to positive growth and stability in Agriculture production, Bangladesh economy has not been significantly affected by the recent global financial crisis. The share of Agriculture in the GDP is 22% while this sector accounts for 12% to the export value of the country. Again, crop sector accounts for 12% of GDP and 56% of Agricultural GDP. The sector as a whole employs almost half of the labor force which is about 48%. This growth accelerated from 2% in first two decades to 4% in the last decade. About 77% of our population lives in rural areas who are largely depend on this sector. There prevailing 8.4 million hectare of cultivable land with 1,4,16,000 farm holdings in the country. The cropping pattern is yet to be improved. The Mono cropped area is about 50% while double cropped area is 36% and tripled cropped area is only 13%.

As Bangladesh is most densely populated country in the world, land-man ratio is very low and it is only 1: 0.06 hectare. However, 150 million people have been feeding with limited resources. In 2009 about 31.9 million Metric Tones of rice was produced. Like many other Asian countries Rice, Potato, Wheat, Maize, Pulses, Oilseed, Sugarcane and Jute are main crops of Bangladesh. In terms of intensity in cropping we have reached about 179%.

Irrigation coverage is around 56% (5.5 million hectare) and we are heavily dependent on ground water irrigation. About 79 % of cultivable land prevailing the irrigation facility by ground water. In the field level water use efficiency is very low, only 30%. In rice, High Yielding Varieties covers 80% while Hybrid is only about 18%. Rice, the dominating crop largely determines the progress in the sector consisting of 62% of the total value of crop output.

Major Constraints of development

The major constraints of development in agriculture sector are as follows:

- Lack of available appropriate technologies
- Lack of skilled man-power in the field level
- Lack of awareness and knowledge of the farmers
- Inadequate supply of quality seed, fertilizer and other inputs
- Inadequate allocation and distribution of Agriculture loan
- Environmental factors like flood, draught, storm etc.
- Lack of long-term agriculture policy

Development strategies

The following steps should be taken by the Government for overall development of Agriculture in-terms of crop production.

Develop National Agriculture Research System (NARS)- increase budget, logistic support and laboratory facility so, that the NARS can run the program for innovation of new technologies such as- high yielding varieties, hybrid varieties, drought-flood-salinity tolerant varieties along with new ideas and method of production technology.

Strengthen Department of Agricultural Extension (DAE) increase budget, logistic support and trained manpower for transfer appropriate technologies to the farmers of the rural areas through awareness-building motivational extension programme being implemented by group meeting, training and individual contact and also by conducting method, result, varietal and fertilizer trial demonstration.

Strengthen Bangladesh Agriculture Development Corporation (BADC) with adequate manpower and logistic support for quality seed production and distribution.

Ensure timely available supply of Agricultural inputs such as seed, fertilizer, irrigation, mechanical devises, pesticide etc.

Ensure emergency rehabilitate programme to combat natural disaster like over-flood, flash-flood, draught, surges and salinity problem.

Ensure market price of the Agricultural products so that farmer are encouraged to produce more.

From Bank agriculture loan should be allocated in time with low interest and easy condition so that the farmers can realize/ recover their loan smoothly.

Abuse of cultivable land should be stopped by Government rules & regulations so a reasonable new land use policy should be formulated and implemented immediately.

Formulation of long-term Agricultural Policy for overall development in the sector

Establishment of Agro-based industries in Public-Private partnership basis.

Conclusion

The increasing trend in agriculture production indicates hopeful and positive development in the sector. The achievement and success is due to adequate supply of quality seed, fertilizer distribution on priority basis and provide subsidy on irrigation by fuel and electricity. The positive attitude and top priority given by the present Government in Agriculture sector stimulated Agriculture development in the recent years. On the other hand, proper use of modern technologies such as high yielding variety of different crops, use of hybrid variety, soil management, fertilizer management and production technology as whole lead to bumper production. To hold up the increasing trend of production a massive action plan needed to under taken by the Government. As agro-based country Agriculture plays the most vital role in the growth of Bangladesh economy. The living standard of the farm family some what improved to a certain level up. Bangladesh Agriculture is dependent on environmental factors like climate and weather condition. So, environmental issues should be taken under consideration during preparation of action plan. To overcome the bottle-neck of environment crop diversification programme should be main concern. If the Government officials, private entrepreneur and farmers worked together with sincerity and devotion, sustainable development in this sector will achieve undoubtedly. Peoples are hopefully looking forward towards a prosperous and hunger free Bangladesh in near future.

"You are what I was, I am what you will be"

Md. Humayun Kabir

The above writing is inscribed in the graveyard of Monash University of Australia. This is a warning to the passer-by about the transitory existence of the human being. Human life has a stipulated span of expectancy. Life has an end. It does not run for ever. Every human being must enjoys a particular period and experience the taste of death. This universal philosophy of the concept of life and death is a normal phenomenon. This has a greater implications to the accountability of living persons in a specific area of performance within a short span of time. Life and death, power and opposition, opportunity and misery come by turns. Each of one has the opposite taste and undeniable relation to the other one.

The above statement is not only a warning or message to the passer-by, but has manifold applications to the various aspect of mankind. This is a general teaching to the mankind that life is short and one has to leave this mundane world sooner or later. But the living human being are not careful about their duty towards family and state. People are so obsessed with the materialistic approach to life and do not think of the future. Many people amass wealth legally or illegally but do not contribute anything to the welfare of the humanity. People are given to worldly achievement instead of caring what would become in the next life.

Another conspicuous area of doing one thing when in power and play the reverse role as opposition is the ugly politics of the present world. The dynamics of third world politics is very complex and many things remain unstudied; when one party goes in power by declaring very lofty political manifesto but in reality does not implement those commitments. The ruling party forget the political obligations towards public opinion, rather formulate policies harming the interest of the people. The party in power starts punishing opposition parties, ie implicating them in different cases, not allowing any political meeting, procession or political practices by forgetting democratic culture. Same is the case with the opposition parties. The opposition does not assist the ruling party in governing the country; rather remain absent from the parliament resorting to hartal and other anti-state activities on a trivial issue. The ruling or opposition parties just do not perform what they are constitutionally bound to do so. They say one thing when they are in power but do the contrary when they go to the opposition. This is the tragedy of politics at least in country like ours.

Same scenario prevails in bureaucracy and business community. Bureaucracy is supposed to help implementing the government policies in right direction. But in recent years there has been a trend of involvement of officials in politics of administration which is very colossal in nature. With the change of government a group of official take the advantage of better placement and promotion because of their relation with the ruling party. These power politics driven officials not only reap the undue benefits but also cause unbearable harassment to the officials who were once involved in so-called politicization during the previous government. Because of this present streak of politicization of administration many honest, objective and impartial officials become victims through no fault of them. Unfortunately, the revengeful relation of ruling party and opposition politics gave birth to an undesirable division of officials in the administration. This stream of politicization in public service caused the decline of service delivery to the people and wastage of merit and sagacity in a humiliating manner as well. The government is trying to minimise this by enacting the Civil Service Act for the greater interest of the country. So there is a ray of hope against hope.

There are differences and deviations grossly found in the behaviour and activities of the business community. Many business tycons rose from the very low-background, earned huge amount of profit without contributing substantial development to the society. The community make profit always but do not admit and when they suffer loss they ask for subsidy from the government. This is the anti-synthesis of reality of our business community and civil society

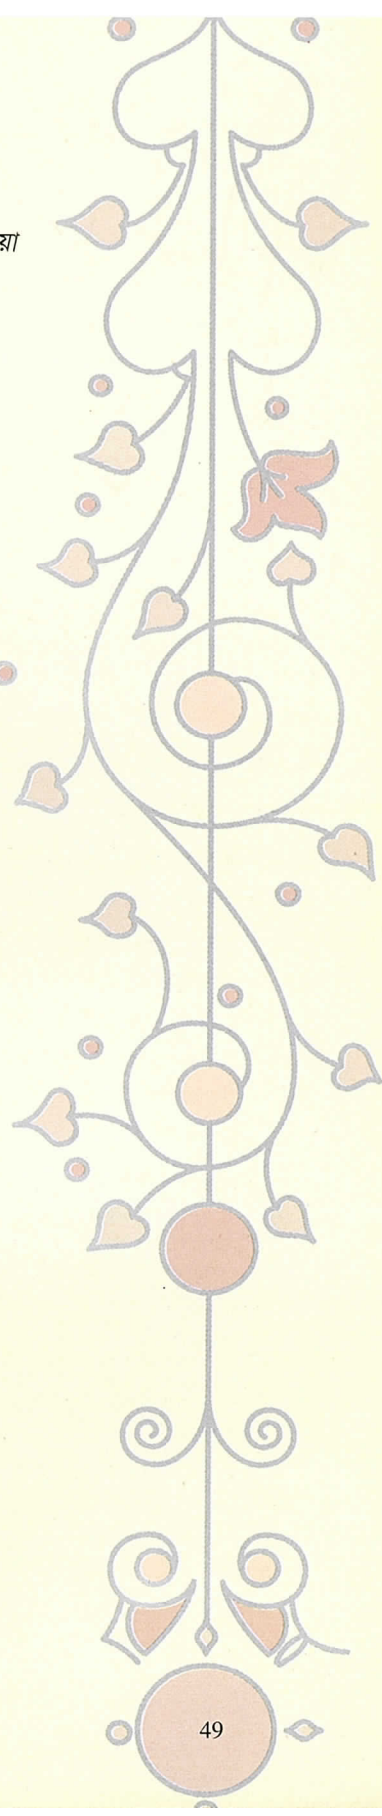

Human beings are oblivious of what they are now and what would happen to them eventually. They do not try to understand the transitoriness of power, position, riches of the mundane world and to leave everything behind themselves, making accountable to the Almighty Allah or even to the conscience. This is learning for the living humanity to lead a righteous life and to be fair, objective and impartial to the all spheres of life, because life loses everything once and if anybody indulges in nefarious activities ultimately he has to pay for it. This has a close affinity with the religious mooring also; we the employee of the Republic must keep this learning always in mind while discharging our duties to the nation.

কষ্ট

মোঃ গোলাম কিবরিয়া

মোহ ছিল ছিল নিংড়ানো অনুভব
একান্তে তোমায় পাওয়া,
চুপি চুপি পাশে বসা, আলিঙ্গন উদভ্রান্তের মত
সর্বস্ব স্থপিল এক মৃণ্ময়তা।
শালীন স্বপ্ন, পুরোনো পোড়োবাড়িতে তোমায় নিয়ে
কিচির মিচির নীরবভাঙ্গা আওয়াজ,
এক অভিনব উন্মাদনায় তোমার স্পর্শে অনেকক্ষণ।
এ অশান্ত অনুভূতি চাওয়া পাওয়া
প্রগাঢ় দৃঢ়তা ছাপিয়ে দিয়েছে
তোমার মাঝ দিয়ে প্রবাহিত এক রূপায়ন
ওগো হাত ধর- বলেছ বারবার
কেন জানি শ্রাবণের ধারার মত হারিয়ে গেছে সে রূপময়তা,
তুমি নাই- জীবাস্মের মত পড়ে আছি।
কেতকী ফুল ফোটে না, গন্ধ ছড়ায় না
কেবলই কষ্ট, কষ্ট।
ছিন্ন রক্তাক্ত এ দেহ মন
বিসন্ন স্মৃতির পরে পদচারণা
কেবলই উষার দিকে তাকিয়ে থাকা
এ বুঝি সূর্য উঠবে, বাতাস বইবে, চাঁদ জাগবে
নিরন্তরতা কাটবে।

HELICOPTER PARENTS

Lt Cdr M A Hasan, (H1), psc (Bangladesh Navy)

Introduction

Preparing children for life is an art. There are many things that parents should know and do about this. But what if, in the name of parenting we diminish the chances for our children to attain some valuable personality traits and important skills? This article is an endeavour to caution the reader about such a rather insane aspect of parenting that has been creeping in slowly to parents of all ages, races and regions.

Who Are Helicopter Parents ?

To start with, what is helicopter parents, who are they? "Helicopter parents" are a generation of mothers and fathers who hover over their children and swoops in, whenever noticing their child to be in slightest discomfort, distress or even having a little bit of challenge. No matter whether their children need them or not. In simple words, these are the parents micromanaging the lives and decisions of their children.

How Do We Get There?

Over-parenting had been around, long before Gen Douglas MacArthur's mom Pinky moved to West Point in an apartment near the campus of US Military Academy in 1899, (supposedly) to micromanage his activities. However, by the 90s, the needle went way past the red line. Among 6 to 8 year olds, free playtime dropped 25% from 1981 to '97, and homework more than doubled in USA. Today's parents are so obsessed with their kids' successes, that parenting has turned into a form of product development. Now what are the causes of such parenting? Let us have a look at some of these.

According to Dr. Robyn J.A. Silverman a child development specialist, the reasons for becoming overprotective parents are several. These are:

Fear the Failure. Moms and Dads cannot stand watching their child to fail, or even to feel inadequate, unprepared, or miserable in any way. It is too heartbreaking. They believe that it's their job to shield their child from these negative emotions.

Bigger, Better, Faster. A child's learning skills are usually slower and less adept than their parents. Therefore, it sometimes tempts the parents to take charge over their kid's affairs.

Desire to Live Vicariously. Some Moms and Dads do a large amount of their children's work such as ghostwrite their homework, airbrush their lab reports.

In fact they look for acceptance and approval for their own performance and take it to heart when their child fails.

Need for Control. Once the kids reach their adolescence Moms and Dads start to feel the need for control over their kid's activities - how their children spend their time and of course, with whom. It should be enough to teach and convince them about the ethical principles and moral or religious values of life, but not to spy on them and force him/ her to avoid getting in touch with us!

Entitlement: Sometimes parents constantly check to see how their child is being treated by someone in comparison to others. They keep their eyes on everyone else's plate. They believe that their child should get more.

Need to keep them young. Some Moms and Dads are saddened by the idea of their children maturing and needing them less.

Demography. Late marriage and fewer children are another factor which inspires the parents to be more protective in guarding their kids.

Types Of Helicopter Parents

A study by a team of researchers in the University of Texas at Austin found that in USA, up to 60 percent of college parents are so-called "helicopter parents". The researchers found five distinctive types of hovering parents. May I hope that my respected reader does not fall into any of these categories?

The "Black Hawk Parent" is typically angry, abusive and would go straight to the Principal/Head Master/ VC's office no matter how minor the concern.

The "Toxic Parent" is paranoid enough to log on to their child's online social networking pages as their child to spy on his/ her friends and roommates. (rather we should teach them about the bad/ risky aspects of these networks)

The "Safety Expert" is always anxious over security measures and is eager to form emergency plans for his or her child. Then the "Consumer Advocate" always is ready to negotiate discounted tuition and fees.

While the "Traffic and Rescue Parent" swoops in, at the first hint of trouble, landing with supplies and support.

Why It Is Bad?

Mistakes are treasured experiences that prepare the youngsters for their futures. If we're always there, hovering, waiting to fight their battles or protect them from anything & everything that might challenge them, or keep them away from mistakes and failure, then:

They'll never learn to be independent or to meet difficulties head-on.
They can't nourish their true identities or attain the required degree of self esteem.
They won't learn to engage in the thinking process.
They get the message, 'I don't think you're competent to handle things which in turn restrict them from becoming a self reliant person.

Way Out

Of course we want our children to do well in college, so they can go on to a bright and promising future. But the challenge is to know how much doing is over doing and where lies the margin? It's a tricky line to walk, since it is evident that engagement of parents in a child's education brings better grades and higher test scores. Let us step aside for a while and reflect on the impact of our actions in the long run. Here should we remember that our aim is to prepare them for his/ her future work place, family and social affairs which are in no way academic results-driven. By being obsessed about good results, we cannot deprive our kids from being equipped with more vital tools such as self-reliance, self-esteem, selflessness, compassion, dedication, loyalty etc. So what can we do about it? Here are some tips:

Take Cue from Children. Instead of moving in quickly and forcefully, parents should take their cues from kids on when they need help.

Allow Mistakes. Let the kids go a bit and allowing them to fail, make mistakes and learn invaluable lessons for future.

Leave Them Alone. Learn when to leave them alone. When you lighten up, they'll fly higher. We're often the ones who hold them down. It will allow the children to employ self reliance. Children who are self reliant are confident in their own skills and therefore, are more apt to go after their dreams. In the process they also become skillful.

Keep in Close Touch. Leaving the kids alone should not be at the magnitude of being invisible. We should keep in close touch with them. We should listen to, understand and be supportive to our child. We should know their fears, dreams, frustrations, strengths and weaknesses. We should be able to mentor them (without micromanaging their action plans) to overcome their weaknesses and utilize their strengths by themselves.

Conclusion

Helicopter parents, by swooping into their child's affairs unnecessarily at various stages and under various contexts, ultimately jeopardize their child's

ability in many ways, such as self awareness, self reliance, judgment aptitude etc. Ultimately, these kids fail to grow up as conscious citizen, confident employee or entrepreneur, ideal parent, compassionate spouse or even a considerate social being. As parents, we should be visionary, acting prudently and patiently to help equip our children equally for both short and long term future challenges.

My final urge to the learned readers is that, let us choose to do the hard thing- to pull back when we are willing and even capable of taking on the whole world for our children-only then shall we teach our children to hold their own against the world (of challenges).

RISING STAR

Taskin Shadman(Son of Md Ataur Rahman)
Student, Class -viii

I want something in my life
But I don't know when, where how it may rise
When I look high up at the sky
A constellation appears
I try to search through the stars
But all I get is a smile on that face of mine
And then I remember that's all
I need to lighten up the rest of my life

ROLE OF BPATC - TRAINING OR PREPARING?

Major Md Shakhawat Hossain, psc, BIR

BPATC is an apex training institution of Bangladesh Government, which has the prime responsibility to train and prepare effective leaders of civil administration and services. This training institution performs the sacred duty of making an officer, ready to take the responsibility of the people of the republic. Thus this institution has many responsibilities and duties to make the training effective and worthy. Hence, what shall be the role of BPATC? - training the officers for the assignment or preparing the officers for their responsibility! This article shall primarily address this important issue and suggest few key aspects of making the training an effective and worthy at BPATC.

Before embarking on the role issue, we must comprehend the typical job pattern of the civil officers. They are the key personalities of national administration, planning and service departments, can be termed as pivot of government administration system. The officers need to interact with various national and international personalities, local elite and general people. Thus the officers have to be prepared to undertake such multi-dimensional role of his service. As such, the role of BPATC shall be preparing the officers to take on the responsibility of the particular cadre service.

Undoubtedly, present BPATC is carrying out this splendid job with due care and anxiety. The institution is fully concern in developing and preparing the future leaders of the society. Often the term 'leader' is being used here, instead of civil servant; why? In the context of present globalized working environment, the civil officers not only carry out the prototype tasks of the republic, rather they have a significant role in planning, coordinating and accomplishing the multi-faceted tasks of the society. Unless they play the role of a leader, the civil officers cannot implement the responsibilities vested on them.

According to Wikipedia, Leadership has been described as the "process of social influence in which one person can enlist the aid and support of others in the accomplishment of a common task". According to Ken "SKC" Ogbonnia, "effective leadership is the ability to successfully integrate and maximize available resources within the internal and external environment for the attainment of organizational or societal goals". As such, the present civil servants shall be trained, developed and prepared as leader of the society.

Discipline is the first aspect of training, preparing and grooming up of the trainees. It covers all aspects like remaining present in the morning physical training or following proper dress codes etc.

A mentionable good system prevails in this institution that is, making of norms by the trainees. These norms are to be followed and course management shall remain very stern about this aspect.

Behaviour like a gentleman or gentlewoman shall be the second aspect of preparing the officers. When a senior officer passes by, junior officers must wish him/her with proper respect, this norm is mostly neglected. All trainees put on their name and course title in their left chest, which clearly identifies whether the passerby is junior or senior. Hence, the wishing norm may be introduced in this institution to bring back the age-old good colleague relationship. Another aspect of preparing the officers is teaching them on dining hall mannerism. These officers represent Bangladesh in many national and international forums, where they need to sit, discuss and have food with illustrious personalities in hotels/restaurants. As the officers are recruited from various sectors of society, hence this training is very necessary in their future career.

The training shall also focus on developing the strategic thinking of the trainees, as they are the planners of the future Bangladesh. To develop this thinking process, there may be number of presentations on different national issues by distinguished personalities of the country. Presently, BPATC invites many distinguished scholars from various disciplines to present many national and international issues to the trainees. There are many coordination gaps between inter-ministry activities, due to lack of strategic thinking system. The civil officers are the prime-movers of the strategic planning, like telecommunication ministry should keep close liaison with the roads and highway ministry and also with the defence ministry. If the officers are not aware of the impact of good or bad strategic planning, then the republic will pay a heavy toll, the way she paid in bringing fiber-optics communication system or submarine cable.

The e-leader, a promising concept of N I Khan needs to be comprehended, conceived and implemented by the officers - if they are truly committed to do something for the nation. 'Service at the Door step'- shall remain a mere slogan, if the officer do not become the e-leader in his workplace and also in his area of responsibility. If the officers are educated, trained and motivated to be the e-leader, then and only then the people of this country will receive the benefit of digital Bangladesh. Hence, BPATC has a very important role in developing and preparing the e-leader.

Whatever training is being imparted to the officers, it will not have any impact unless the training is properly implemented on field or office place. The officers have to be self-motivated, dedicated, inspired and sincere to undertake the training positively. Hence, a congenial and homogenous learning environment must prevail in BPATC, which will surely make the training successful and worthy.

Dependable Power - Delighted Customer

ঢাকা পাওয়ার ডিস্ট্রিবিউশন কোম্পানি লি. (ডিপিডিসি)

বিদ্যুৎ ভবন, ১ আব্দুল গনি রোড, ঢাকা-১০০০।

সময়মত বিদ্যুৎ বিল পরিশোধ করুন

- বিদ্যুৎ একটি অতি প্রয়োজনীয় ও মূল্যবান জাতীয় সম্পদ। দেশের বৃহত্তর স্বার্থে সীমিত এই সম্পদের সুষ্ঠু ও পরিমিত ব্যবহার একান্ত বাঞ্ছনীয়। এ বিষয়ে আপনি ব্যবস্থা নিন এবং অপরকেও উদ্বুদ্ধ করুন।
- বিদ্যুৎ ব্যবহারে মিতব্যয়ী হউন। আপনার বাসগৃহ অথবা ফ্যার্মালয়ে যত কম পরিমাণ বিদ্যুৎ ব্যবহার করলে চলে ঠিক ততটুকুই ব্যবহার করুন। এতে বিদ্যুৎ সাশ্রয় হবে, আপনায় বিদ্যুৎ বিল কম আসাবে এবং সাশ্রয়কৃত বিদ্যুৎ প্রয়োজনীয় কাজে ব্যবহার করলে দেশ ও সমাজ উপকৃত হবে।
- আপনার শিল্প প্রতিষ্ঠান দু'শিফটে পরিচালিত হলে লোড-শেডিং পরিহারের জন্য পিক-আওয়ার (সন্ধ্যা ৫.০০ টা হতে রাত ১১.০০ টা পর্যন্ত) এর আগে বা পরে কাজের সময় নির্ধারণ করুন। আপনার ফ্যার্মালয়ে অথবা বাসগৃহে পারিন পাম্প, ইলেক্ট্রিক, মাইক্রোওভেন, গিয়ার, ওয়াশিং মেশিন, ড্রায়ারসহ অন্যান্য গৃহস্থালী যন্ত্রপাতি পিক আওয়ারে ব্যবহার থেকে বিরত থাকুন।
- আধুনিক প্রযুক্তির “এনার্জি এফিশিয়েন্ট লাইট ও মোটর” কম বিদ্যুৎ দিয়ে চলে। এ ধরনের লাইট ও মোটরে বিদ্যুৎ খরচ অনেক কম হয় বলে বিদ্যুৎ সাশ্রয় হয় এবং বিদ্যুৎ বিল কম হয়, সুতরাং আজ থেকেই “এনার্জি এফিশিয়েন্ট লাইট ও মোটর” ব্যবহার করুন।
- আপনার বাসগৃহ ও ফ্যার্মালয়ে অনুমোদিত লোড অনুযায়ী বিদ্যুৎ ব্যবহার করুন। অনুমোদিত লোডের অতিরিক্ত বিদ্যুৎ ব্যবহার করলে বিতরণ ব্যবস্থায় কারিগরী সমস্যার সৃষ্টি হয়ে বিদ্যুৎ সরবরাহ ব্যাহত হতে পারে। অত্রএর, নিরবচ্ছিন্ন বিদ্যুৎ পেতে হলে অনুমোদিত লোড ব্যবহার থেকে বিরত থাকুন।
- অবৈধবিদ্যুৎ সংযোগ গ্রহণকারীরা অনিয়ন্ত্রিতভাবে বিদ্যুৎ ব্যবহার করে। ফলে বিদ্যুতের ঘাটতি দেখা দেয় এবং আপনি বৈধ বিদ্যুৎ গ্রাহক হয়েও চাহিদা মোতাবেক বিদ্যুৎ প্রাপ্তি থেকে বঞ্চিত হন। আসুন, আমরা সকলে ঐক্যবদ্ধভাবে অবৈধ বিদ্যুৎ সংযোগ ব্যবহারকারীদের বিরুদ্ধে সামাজিক প্রতিরোধ গড়ে তুলি।
- ডিপিডিসি এলাকায় অবৈধ বিদ্যুৎ সংযোগ বা অন্য যে কোন বিষয়ে আপনার কোন অভিযোগ থাকলে ভারপ্রাপ্ত কর্মকর্তা, কমপ্লেইন সেল, কোম্পানী সচিবালয়, ডিপিডিসি বরাবরে অবহিত করুন। প্রয়োজনে আপনার পরিচয় গোপন রাখা হবে।
- ডিপিডিসি সর্বদা গ্রাহক সেবায় নিয়োজিত।
