2.0 Advanced Course on Administration and Development (ACAD)

Advanced Course on Administration and Development (ACAD) is one of the main courses of BPATC for the mid-level civil servants of the Government. Module 13: Learning Good Practices

Total Marks: 150

Part I.

Domestic Exposure Visit

Evaluation Method: Group Report (Word Limit 500-700)

Total Marks: 50

Sub-Module Objectives: To create opportunities for the participants to know the economy's transformation process by visiting different institutions/industries of the country. This visit also offers the participants opportunities to learn the governance culture and good practices of the visiting institutions and enterprises.

Role of the CMT

The CMT arranges visits for the participants to different institutions and enterprises. Public sector institutions, private sector enterprises, not-for-profit organizations, media outlets, military establishments, etc. are the target institutions for domestic exposure visits.

Group Report

CMT briefs the participants about the visit protocol and report preparation before any visit. Group Report should ideally incorporate the following issues: (a) an overview of the visiting institution; (b) governance; (c) learning points/good practices; (d) recommendations for public sector institutions in terms of realizing institutional goals and governance improvement.

Part II.

Overseas Training

Evaluation Method: Group Report Preparation and Presentation (Word Limit: 500-700)

Total Marks: 100⁴

Sub-Module Objectives: To enable the participants to practically see, observe, and realize the development and trend of the progress of the visiting country. OT creates a unique opportunity for the participants to understand the critical factors of the visiting country's growth and success and their replicability in Bangladesh.

Management of the Overseas Training

Ministry of Public Administration identifies the country and the institution as part of the Overseas Training (OT) for 10 days, excluding the travel period. Usually, an advanced or emerging country, in terms of economic development, is selected for OT. The visit takes place after the completion of the course at the BPATC. BPATC and MOPA jointly organize the OT, and the latter arranges a briefing on this Training before it practically takes place and bears the cost of the OT.

⁴ The schedule may change depending on the necessity and morning PT and afternoon games are subject to sunrise and sunset.

Roles and Responsibilities of the Participants in the OT

During the visit, the participants learn about different policies, strategies, and practices, both in general and sector-wise, contributing to the visiting country's development. As part of the OT, the participants get the opportunity to visit different institutions, and thereby, they learn many things in detail. Participants prepare a comprehensive report on the OT, where the following issues are included: (a) an overview of the visit; (b) different aspects of the development journey of the country (overall and sector-specific); (c) learning points for Bangladesh.

Participants should be very active and engaged in the visit to understand and identify the critical factors that contributed to the visiting country's development. Participants should also smartly and gently interact with their counterparts to deepen the sense of partnership and cooperation.

Methodology and Briefing on Assignments

Under OT Group Formation

Participants are organized in different groups, and each group may consist of 4-5 participants. CMT do the grouping. Each group gets a sector-specific topic from the CMT for study during the OT.

Overseas Part

Each group prepares a group report on the OT and presents it at the visiting country's host/designated institution. The group report and presentation cover the assignment of the overseas part. The group prepares the report and presentation, focusing on the assigned topic. While discussing policies, strategies, and experiences in the visit report, each group should specifically look at its given subject/topic.

BPATC Part

Lessons Learned Workshop (LLW)

After returning from the visit, BPATC organizes a 'lessons learned workshop (LLW)' where each group presents their visit report according to their assigned topic. Each group gets 30 minutes: 10 minutes for presentation and 20 minutes for Q&A. Group presentation may be made by one or some members of the group; however, all members must participate in the Q&A; otherwise, the member(s) who do not take part in the Q&A cannot qualify in the 'individual participation' segment which bears 25 marks.

A panel of experts evaluates the report and presentation in the LLW. Participants of other on-going courses at the BPATC may join the audience of the LLW, and they may also ask questions.

LLW Marks Distribution

Name of the Participant	Group Report Presentation (25 Marks) ⁵				Individual Contribution ⁶ (Q&A Part)		
	Issues Covered in the Report						
	Overview of the Visit	Policy and Institutional Approach (Topic-wise)	Key Learning Points	Recommendations	Number of Question(s) Responded	Quality of Response (Clarity and Communication Ability)	Number of Supplementary Question(s) Responded
	5	10	5	5	10	10	5

⁵ Each member of the group will get the same number as group performance.

⁶ This evaluation is fully based on individual performance.

5.0 Guidelines for Seminar Paper

Writing a seminar paper is an integral part of the ACAD. Each participant must write a 'seminar paper' and present the paper before a panel of evaluators comprising faculty members of BPATC and renowned academics and practitioners. This brief guideline supports the participants in writing the seminar paper.

This exercise gives the mid-level civil servants a practical opportunity to understand the governance and policy issues and, at the same time, to critically analyze the public policies to realize to what extent they are useful and relevant. By writing a seminar paper, the participants understand the complexities and multidimensional dynamics of the public policy process and Governance. Moreover, participants gain professional knowledge and expertise to comment on the necessity, effectiveness, efficiency, validity, etc. of the public policies and the quality of Governance. This exercise also helps the participants to improve their analytical abilities, writing, and reasoning skills.

Specific Objectives of Writing the Seminar Paper

The following are the specific objectives of the assignment:

- understanding the critical aspects of Governance and development;
- helping to evaluate the policy process, from formulation to effectiveness;
- using social research methods to analyze and evaluate public policies;
- making the participants able to write formal seminar paper complying with standard methodological norms and requirements;
- improving critical analytical abilities; professional writing and presentation skills;
- enhancing the logical sequence and argumentation process.

Note on the Research

A participant should research an area that is pertinent to his/her role. In other words, any governance, policy, or development issues of his/her Ministry/Division/Agency should be the main focus of the research. While undertaking the study, the participants may keep the following points in mind to better develop the paper:

- the importance of the study in terms of governance improvement, policy effectiveness, development results;
- challenges and opportunities about the research issue;
- Scope of generating evidence for policy influence and advocacy.

Individual Assignment

Each participant must prepare a seminar paper that should be presented before a panel of experts. During the preparation of the paper, a team of research consultants supports the participants. Each participant makes an oral presentation of his/her seminar paper.

Technical Requirement for the Preparation of the Policy Evaluation Paper

Maintaining Academic Ethics

No data, text, facts, ideas, or theories belonging to others presented as if they were the author's own ("plagiarism") are accepted. Proper acknowledgment of other's works must be given (this includes material that is closely copied (near verbatim), summarized and/or paraphrased). Quotation marks are used for verbatim copying of material, and permissions are secured for copyrighted material.

BPATC uses Turnitin software to screen plagiarism. If there is a suspicion of plagiarism, the concerned authority carries out an investigation. If, after research, the allegation seems to raise valid concerns, the accused author is contacted and allowed to address the issue. If any participant violates BPATC's prescribed policy regarding plagiarism, BPATC does not accept his/her paper, and this may result in disciplinary actions.

Length

The length of the paper should be between 3000 and 5000 words.
